

MOUNT VERNON  
COMMUNITY SCHOOL DISTRICT

Jeff Schwiebert, Superintendent

December 8, 2008

Tricon General Construction was the general contractor for a \$600,000 middle school remodel project in the Mount Vernon Community District. The project had to be completed during the summer months and they were able to complete the job on time with a few small exceptions. They were very easy to work with on the project and kept me, as the District representative, informed at all times.

Their workmanship was excellent and they tried very hard to please. Chris, their site superintendent, did his job very well and I would recommend Tricon General Construction as a general contractor who gets the job done as specified.

Sincerely

Jeff Schwiebert  
Superintendent of Schools
